

Sreenivasa Sai Bhasanth Lakkaraju

Senior Full Stack Developer · Java · Angular · AWS

Boston, MA · 813-392-9590 · lakkarajbhasanth.1594@gmail.com · [linkedin.com/in/bhasanth](https://www.linkedin.com/in/bhasanth) · bhasanth.tech

PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 8+ years of experience designing and delivering scalable, high-performance, cloud-native applications across aviation, healthcare, e-commerce, and financial services. Expertise in building distributed systems using Java/Spring Boot, Angular/React, and event-driven microservices on AWS.

Proven track record of delivering measurable business impact, including improving transaction success rates by 25 points and achieving a 43% device adoption rate in production environments. Experienced in system design, API development, and building low-latency, high-availability systems.

Skilled in integrating AI/ML capabilities including LLMs, RAG, and prompt engineering using AWS Bedrock and SageMaker. Strong background in CI/CD, DevOps practices, and leading cross-functional teams in Agile environments. Holds AWS Solutions Architect Associate and AWS Certified AI Practitioner certifications.

TECHNICAL SKILLS

Languages: TypeScript, Java, JavaScript, Python, HTML5, CSS3

Frontend: Angular, React, Redux, Tailwind, Next.js, Responsive UI, Cypress, Mocha

Backend: Node.js, Express, Spring Boot, Hibernate, Kafka, IBM MQ, RESTful APIs, Microservices

Cloud & DevOps: AWS (S3, EC2, Lambda, API Gateway, CodePipeline), CI/CD, Jenkins, Docker, Kubernetes, SonarQube, Maven, Git

AI & ML: AWS Bedrock, SageMaker, LLMs, Prompt Engineering, Emotional AI, RAG, RLHF, Agentic AI

Databases: DynamoDB, MongoDB, DB2, Redis, Redshift, MySQL

Tools & Methods: Agile/Scrum, JIRA, AEM, MOVEit, Amazon Q, Kiro, Claude Code, Mono-repo, JUnit

PROFESSIONAL EXPERIENCE

Sr. Full Stack Developer

Delta Airlines — Digital Cabin Experience

Sep 2024 – Present

Contracted via RiceFW Technologies Inc.

- Lead a team of developers designing and building a management dashboard for dynamic deployment of application builds to aircraft onboard servers, streamlining fleet-wide updates.
- Developed Angular components for an updated onboard Wi-Fi UX that achieved a 43% device take rate and 24% customer engagement rate, exceeding 2025 annual targets.
- Executed a major code repository migration involving 20,000+ lines of code with zero production downtime.
- Accelerated development and debugging using AI-assisted tools including Amazon Q, Kiro, and Microsoft Copilot.

Sr. Java Developer

Deloitte Consulting — Ohio Medicaid (OMES)

Jan 2024 – Aug 2024

Contracted via RiceFW Technologies Inc.

- Engineered custom Java integrations between ODM and vendor systems including Aetna, Buckeye, DODD, and ODA as part of the statewide Medicaid system integration.
- Architected an SFTP-based automated file transfer solution using Progress MOVEit, processing 100,000+ files per day with high reliability.
- Led patient data migration from the MITS legacy system to Ohio Benefits (OB) and designed RDM pipelines for medical code set sharing across vendors.
- Built Python reconciliation scripts to compare transactional data across vendor systems, reducing manual audit time by ~70%.
- Implemented IBM MQ messaging for real-time, low-latency event-driven communication between integrated systems.

Java Developer

RiceFW Technologies Inc.

Jul 2023 – Dec 2023

- Owned end-to-end development of an internal project management tool — requirements gathering through delivery — including a Next.js/TypeScript backend, Jenkins API integration, and React UI for pipeline and SonarQube monitoring.
- Achieved 90%+ unit and integration test coverage across all services and entities.

Full Stack Developer

Delta Airlines — Digital Cabin Experience

Feb 2022 – Jul 2023

Contracted via Tata Consultancy Services.

- Designed an Atomic Design framework for on-the-fly onboard Wi-Fi offer updates in Angular, deployed across 25 flight tails with a roadmap for 500+ tails.
- Built AWS Lambda functions connecting the onboard server, client, and ground APIs across Delta's Loyalty, Retail, and Payments teams.
- Delivered a responsive online check-in app with Cypress/Mocha regression tests, increasing successful transactions from 63% to 88% in production.

Java Developer

CloudData Technology LLC

May 2021 – Feb 2022

- Designed a cloud storage architecture in Kotlin and TypeScript as a reusable baseline for future client engagements.

Software Development Engineer

Amazon — Devices

Jul 2020 – May 2021

- Designed an automation framework for onboarding device warranty configurations, reducing SLA from 3 weeks to seconds.
- Built a multi-year warranty platform in React/Node.js replacing a legacy system managing 700M+ warranties, then supported migration to Lambda, API Gateway, DynamoDB, and Redshift.

Infrastructure Software Engineer

JPMorgan Chase & Co. — Global Technology Infrastructure

Jul 2016 – May 2018

- Built RESTful microservices in Java/Spring Boot managing storage for 7,000+ internal applications with Redis session management; achieved 95% unit test coverage via TDD.

CERTIFICATIONS

[AWS Certified Solutions Architect - Associate](#) | Amazon Web Services | Issued May 2026 · Expires May 2029

[AWS Certified AI Practitioner](#) | Amazon Web Services | Issued Mar 2026 · Expires Mar 2029

[AWS Agentic AI Demonstrated - Microcredential](#) | Amazon Web Services | Issued May 2026 · Expires May 2027

[AWS Serverless Demonstrated - Microcredential](#) | Amazon Web Services | Issued May 2026 · Expires May 2027

EDUCATION

Master of Science in Computer Science

Aug 2018 – May 2020

University of Florida, Gainesville, FL

Bachelor of Technology in Information Technology

Jul 2012 – May 2016

VIT University, Vellore, India
